## EXPERIENCE

### Frontend Web Developer

January 2023 – Present

- Over 2 years of hands-on experience building and deploying production-ready web applications using React, Next.js, and Tailwind CSS
- Built a strong frontend foundation with over 2.5 years of experience in HTML, CSS, JavaScript, and TypeScript, focusing on clean architecture, performance, and scalable UI systems
- Developed reusable UI components, product detail pages, dynamic forms, and responsive layouts using utility-first styling principles
- Integrated Sanity CMS for dynamic content management and structured product data in e-commerce apps
- Applied Git and GitHub for version control, and deployed projects using Vercel with optimized performance
- Gained real-world development exposure under the Governor Sindh IT Initiative, participating in code reviews, workshops, and hackathons
- Solidified frontend foundations using HTML, CSS, JavaScript, and TypeScript, focusing on clean architecture and scalable UI systems

## PROJECTS

### E-Commerce Platform – Hackathon Project

Tech Stack: Next.js, TypeScript, Tailwind CSS, Sanity CMS, Vercel

- Built a full-stack e-commerce site with dynamic product listings, real-time search, and secure checkout system
- Integrated Sanity CMS for dynamic content management of products and categories
- Developed order placement flow and responsive UI components with Tailwind CSS
- Presented live demo during a hackathon under the Governor Sindh IT Initiative

### E-Commerce Platform Admin

Tech Stack: Next.js, TypeScript, Tailwind CSS, Sanity CMS

- Designed an admin dashboard for inventory management and order tracking
- Built role-specific UI panels with dynamic routing and status-based filters
- Integrated with Sanity backend for seamless content operations
- Ensured accessibility and responsive layout across all dashboard views

### Business Nexus – Role-Based Collaboration Platform

Tech Stack: Next.js, TypeScript, Tailwind CSS, React Hooks, Vercel

- Developed a collaboration platform enabling interaction between investors and entrepreneurs
- Implemented role-based routing, authentication, profile pages, and dynamic dashboards
- Built a real-time chat interface with auto-reply and request management features
- Deployed with mobile responsiveness and clean UX using SweetAlert2 and Tailwind

### Zyvora AI – Smart Chatbot

Tech Stack: Next.js, TypeScript, Tailwind CSS, Gemini API, Clerk Authentication

- Created a responsive AI chatbot interface using Gemini API for real-time conversational responses
- Implemented Clerk authentication to manage secure user login and route protection
- Built a structured messaging system with auto-scroll and animated UI transitions
- Combined GenAI integration with frontend technologies for a seamless user experience

## EDUCATION

### Intermediate (Science – General)

Government Degree Boys College – KMC Store, Karachi

Completed: 2024

## SKILLS

TypeScript | HTML | CSS | React | JavaScript | Next.js | Tailwind CSS | Sanity CMS | GIT | GitHub

## CERTIFICATIONS

- Implement interfaces in TypeScript Certificate By Microsoft, 2024
- TypeScript Operators - Project Certificate By Coursera, 2024
- TypeScript String Properties and Methods - Project Certificate By Coursera, 2024
- Generative AI for Educators Certificate By Google, 2024
